React Developer Intern

Hi, I'm Muhammad Ammar Atique, a Final-year BSCS student at the University of Haripur with a passion for mastering the MERN stack. I specialize in crafting seamless user experiences with **React.js** and have a strong foundation in front-end technologies like **HTML, CSS, and JavaScript**. My skill set extends to frameworks such as **Bootstrap, Tailwind CSS, and Styled Components**, allowing me to create responsive and visually appealing web applications.

Proficient in **Git and GitHub**, I prioritize collaborative workflows and version control to streamline development processes. Eager to broaden my expertise, I'm excited to explore **back-end development** using **Node.js, Express, and MongoDB**, completing the MERN stack.

Driven by curiosity and a commitment to continuous learning, I actively seek opportunities to expand my skills and contribute to innovative web development projects. Let's connect and explore how I can bring my passion and skills to your team!

WORK EXPERIENCE

Personal Project: E-commerce App

React Developer

- Developed a full-fledged E-commerce application using React, specializing in selling products. Leveraged advanced techniques such as Context API with useReducer for efficient state management and React Router DOM for seamless navigation between pages. Styled the application using Styled Components to ensure a sleek and responsive user interface. Implemented Axios for optimized data fetching, enhancing the app's performance. Integrated Auth0 for robust authentication and .env for securing sensitive data. Managed form submissions effortlessly with Formspree, ensuring smooth interaction throughout the user experience.

EDUCATION

Bachelor's in Computer Science

University of Haripur (Last year student)

SKILLS

- **Web development:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap, Styled Components
- **Tools:** Git, Github, Visual Studio Code, Stackoverflow
- **Programming Languages:** Javascript, Python, C++
- **OS:** Ubuntu Linux, Windows
- **Databases & DBMS:** SQL, PL/SQL, MS Sql Server, MySQL
